

Hi David,

Thanks for your enquiry.

In very simple terms, yes there will be a further power upgrade in the near future for the 125ps model, however no this will not be warranty friendly.

I'm afraid we can't give any specific information as it hasn't been launched as yet.

Please keep an eye our on our website, online store, and Facebook page for more information.

Best Regards,

The mountune® online team.
